

AXON

— UNDERWRITING —

Axon Underwriting Services, LLC was formed in 2013 by underwriting and brokerage experts to raise the bar in specialty insurance performance. As a highly efficient, full-service Program Administrator, Axon allows its select brokerage partners to leverage its expertise and capabilities to expand current offerings and create organic growth. Our extensive understanding of industry-specific exposures enables us to customize products, programs and comprehensive coverage solutions for targeted industries.

Axon positions itself to win by:

- Acquiring complete underwriting authorization to facilitate real-time coverage decisions
- Controlling the underwriting process from submission to policy issuance
- Leveraging its highly customized underwriting system to guarantee quick and efficient service
- Delivering a quality product at a competitive price with every quotation

OUR SPECIALTY INSURANCE PRODUCTS SERVE THESE INDUSTRIES AND MORE

CONSTRUCTION

Best in class coverage for all contractor sizes and types

LOGISTICS & DISTRIBUTION

Unique and differentiating approach to property and transportation risk

ENVIRONMENTAL

Providing coverage for simple and complex pollution exposures

MANUFACTURING

Customizing coverage for a wide variety of manufacturers

1 INDUSTRY NEED

The insurance industry demands immediacy, but holds many hidden exposures that require specialization, industry knowledge and underwriting expertise.

2 OUR SOLUTION

Axon's dedicated and focused insurance experts allow partners to TRUST in our superior products and EXPECT highly-responsive service.

3 THE RESULT

Axon creates a competitive advantage for its partners while keeping production levels at maximum efficiency and driving extremely high retention rates.

Our Products

CONTRACTORS POLLUTION LIABILITY (CPL)

The CPL policy is designed to prevent gaps in coverage due to pollution-related exclusions on standard commercial general liability programs. With environmental liabilities more recognized than ever before, virtually any contaminant can trigger a pollution exclusion in the CGL policy.

CONTRACTORS POLLUTION & PROFESSIONAL LIABILITY (CPP)

Axon's Contractors Pollution and Professional Liability (CPP) policy is custom tailored to address the unique risk exposures encountered by contractors and design-build firms against the uncertainty of Environmental, as well as, Professional Liabilities as they carry out their daily operations.

POLLUTION LEGAL LIABILITY (PLL)

Companies that own or operate land are increasingly at risk of realizing significant environmental liabilities as a result of sweeping environmental laws and regulations. Emerging pollutants such as mold, legionella and indoor air contaminants can appear even within the most innocuous facilities.

STAPLE (STOCK THROUGHPUT AND POLLUTION LIABILITY EXPOSURE)

Axon's Stock Throughput And Pollution Liability Exposure (STAPLE) product is the first of its kind to combine Stock Throughput and broad third party pollution coverage into one policy form. Stock Throughput is comprehensive all-risks coverage for an insured's goods commencing the moment they assume responsibility until their interest ceases.

STORAGE TANK LIABILITY (TANK)

Provides coverage for Aboveground and Underground Storage Tanks, while satisfying state specific Financial Assurance requirements. As typical of all Axon products, our form contains proprietary coverage enhancements adapted to clients' needs with coverage going well beyond the industry standard.

ENVIRONMENTAL AND GENERAL LIABILITY EXPOSURE (EAGLE)

Official provider of Combined Casualty, Excess and Automobile coverage for the National Association of Chemical Distributors Insurance Program.

CYBER AND PRIVACY SECURITY LIABILITY

Axon's proprietary cyber form responds to client breach and ransomware incidents providing response services, defense cost, business interruption, data recovery and credit monitoring coverage. Our clients benefit from Axon's In-house Claims Assistance Team and Outside Legal resources including Pre and Post Breach Resources.

PRODUCT RECALL

Coverage for short-tail product recall and foodborne illness insurance policies for manufacturers, distributors, retailers, and restaurants on both a primary and excess basis, including Contaminated Products Insurance, Consumer Product Recall Insurance, Restaurant Foodborne Illness and Contamination Insurance.

Axon Re offers dedicated cargo, stock throughput, property, cyber and environmental reinsurance capacity for cedants and reinsurance brokers in the US and Latin America. Coverage is placed within our in-house binding authorities on behalf of our Lloyd's of London and Asian partner reinsurers.
