

## WHAT IS EZ-Tank®?

EZ-Tank® is a simple way for Insurance Producers to obtain Storage Tank Liability Quotes **using our proprietary tank database\* to gather tank information!**

Axon Underwriting's proprietary **EZ-Tank®** Insurance Program with **EZ-TANK® validation** is a hassle-free way to get quick Storage Tank Liability Quotes and receive confirmation that your client's tank information matches state regulatory databases.

### ***How Does EZ-Tank® Benefit Insurance Producers?***

1. No tank information or schedules required for quotation
2. REDUCE CLAIMS ISSUES arising from incorrect tank data
3. REDUCE BROKER E&O Exposure by validating tank data in pre-filled application with tank schedule provided with quotation
4. Obtain leading Coverage at Competitive Pricing with minimum premiums as low as \$350
5. Financial Responsibility Certificates provided
6. Use EZ-Tank® to confirm whether your clients have tanks for which coverage should be purchased
7. Have a large Portfolio of Insured Locations? Email us at [eztank@axonu.com](mailto:eztank@axonu.com) for assistance in getting a quote without using a portal.

The information contained in this communication is intended for general information purposes only. EZ-Tank® policies are provided on A+ rated paper on Admitted RLI Insurance Company or Non-Admitted Mt. Hawley Insurance Company Paper. With each submission, EZ-Tank® will determine whether coverage can be offered on Admitted or Non-Admitted paper. Paper determination is dependent on storage tank risk profile and location of tank(s) by State.

Producer must have Surplus Lines License to bind non-admitted quotations and will be responsible for all surplus lines, taxes, fees and filing requirements in that state. any such surplus lines coverage will be placed in accordance with state and federal law, including applicable laws governing the placement of insurance with non-admitted insurers. Policy forms, conditions, premiums, and deductibles used by surplus lines insurers may be different from those found in policies used in the admitted market.
