- Corrective Action Costs include testing, monitoring and evaluation
- A Release includes leakage
- Primary and non-contributory coverage

WHAT IS EZ-TANK®?

EZ-Tank® is a simple way for Insurance Producers to obtain Storage Tank Liability Quotes **using our proprietary tank database* to gather tank information!**

How Does EZ-Tank® Benefit Insurance Producers?

1. No tank application or tank schedules required for quotation
2. Competitive Pricing with minimum premiums as low as \$350
3. REDUCE CLAIMS ISSUES arising from incorrect tank data
4. REDUCE BROKER E&O Exposure by validating tank data in pre-filled application with tank schedule provided with quotation
5. Financial Responsibility Certificates provided
6. Use EZ-Tank® to confirm whether your clients have tanks for which coverage should be purchased
7. Have a large Portfolio of Insured Locations? Email us at eztank@axonu.com for assistance in getting a quote without using a portal.

DESIGNED FOR FUEL RETAIL OPERATIONS

Target Industries include **Gas Stations and Retail**, with insured tanks including above ground dispensing or pumping equipment at gasoline stations.
