

SME Admitted Cyber Liability

Built in partnership with the Hartford, Axon Cyber's SME Admitted Cyber Liability solution delivers competitively structured standalone cyber coverage for small businesses through the wholesale channel. Designed to address today's evolving cyber threats, this product combines comprehensive protection, responsive claims handling, and value-added risk management resources with the speed and service wholesale brokers expect.

As an extension of Axon's growing specialty platform, this solution complements Axon Pro by helping brokers address cyber and professional liability exposures that increasingly overlap across today's business environment.
